

PİNA "NORM 120 SERIES" SAND FILTERS (WITH PLATFORM)

Pina filters are produced from fiberglass reinforced polyester. Manhole cover and sight glass is available on side. Norm serie can be used with single or multi layered bed. Including manometer and air-relief valve on top. All steel parts are AISI 304.

According to the request, polyvinylester can be coated inside to resist ozonated water. Ask for special requests.

Sand bed is 120cm / Manhole is 40cm.
