

POOL LIGHTING & HEATING

SLIM FLAT LED LIGHTING

Including mounting bracket and screws.

SLIM FLAT LED LIGHTS

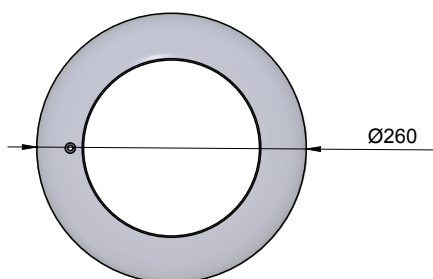

The LED lamp stands out with exceptional durability, thanks to its complete resin encapsulation that guarantees absolute waterproofing. The specialized epoxy-filled LED panel ensures 100% waterproofing, maintaining functionality even if only the LED panel is operational. With energy-efficient consumption and IP68 protection, it offers multiple or single white color options. It is very easy to install on flat surfaces without any niche.

Cable: 2.5m
(Can be produced longer on request)

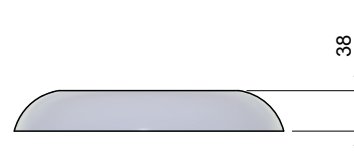

FULL RESIN FILLED FLAT LED LIGHTS

TYPE	LUMEN	LED PCS	CONN.	POWER	KELVIN	CODE	PRICE
				Nominal *			
60 SMD Cold White	1300	60	12V AC	15W	6250		
60 SMD Warm White	950	60	12V AC	15W	3000		
60 SMD Blue	400	60	12V AC	15W	-

SLIMFLAT LINER CABLE NOZZLE ADD-ON

Watertightness part allows fixture cable's transition at liner pools. It provides fixture cable to pass behind of the panel without water leakage.

CABLE	CODE	PRICE	BOX
-------	------	-------	-----

Suitable for cable passage up to 20 mm

Nominal Power: The amount of energy consumed by the unit, including LEDs and power sources.

Maximum Power: The total maximum power value of the LED chips specified in the manufacturer's technical data sheet
